

SPRINT-I

SETTING UP APPLICATION ENVIRONMENT

Docker CLI Installation:

IBM gave the documentation link, for how to install the Docker and CLI installation. we followed the instructions given by the documentation and we installed the Docker Desktop application.

First to install “Docker Desktop Installer.exe” file from [www.Docker.com](https://www.docker.com)

After downloaded the above file, follow the given below process:

- Double-click Docker Desktop Installer.exe to run the installer.
- Follow the instructions on the installation wizard to authorize the installer and proceed with the install.
- When the installation is successful, click Close to complete the installation process.

Here is the Screenshot for the Docker installation, given Below:

A small Green rectangle left corner shows that the engine is running.
